WATER BOTTLE FILLING & PERSONNEL COOLING STATIONS

BF (1) AT GIS

Extra Good Clean Up and Cord Roll Up

- Take some time today to make sure that your crews are doing an extra good clean up before they go home today and rolling up extension cords.
- This is a good opportunity to get everything put away, thrown away, and in a better state to start work next week.
- Rolling up your cords ensures that they are being properly inspected and that we aren't using cords that pose a shock hazard.
- Good housekeeping raises the professionalism and focus of our crews.
- It is not to simply make the jobsite look nicer, but also helps with our material storage, removing tripping hazards, and making other hazards more obvious as they aren't obscured by trash and debris.

Heat Index- August 25th

		temperature (°F)
